

MAITAKE-DMG™

>> NET WT. 4 OZ. (120 ML) | 0300222.120

SUPPORTS IMMUNE HEALTH* POWERHOUSE IMMUNE COMBINATION

>> **Maitake-DMG™** is a standardized extract of Maitake mushroom that contains the D-fraction, one of nature's most comprehensive immune support compounds.* Combined with our patented Aangamik[®] DMG, well-known for its ability to support a healthy immune response, increased stamina, endurance, and energy levels, **Maitake-DMG™** may play a significant role in maintaining health by supporting the body's natural immune system functions.*

Recommended For:

- ✓ Superior immune system support*
- ✓ Supporting the activity of macrophages and T killer cells*
- ✓ Supporting the release of interleukins and cytokines which activate immune cells*
- ✓ Optimizing apoptosis*
- ✓ Normalizing body functions*
- ✓ Helping the body cope with stress*

Maitake-DMG™ is a combination of two well-researched nutrients:

- ✓ Maitake PD-Fraction[®] & D Fraction[®]
- ✓ Aangamik[®] DMG

About the Nutrients

- ✓ **Maitake** is a mushroom that has been used in traditional Japanese herbalism for hundreds of years. Maitake Mushroom has a high nutritional profile, enhances the immune system, helps the body cope with stress, normalizes body functions, and is rich in Beta-Glucans.*
- ✓ **Beta-Glucans** are polysaccharides that act as free radical fighters and support immune system activation.*
- ✓ **Maitake PD-Fraction[®]** is a trademarked brand of highly purified, standardized extract of Maitake mushroom that yields 30% pure D-Fraction[®].
- ✓ **D-Fraction[®]** has been extensively researched and is a highly concentrated source of Beta-1,6-Glucans, which has a higher ability to stimulate macrophages, T killer cells, stimulate release of interleukins and cytokines that activate immune cells, and enhance the immune system.*
- ✓ The D-Fraction[®] from Maitake Product Inc. is the only Maitake product that has been approved by the FDA for conducting phase 2 clinical studies (IND #54,589)*.

- ✓ **Aangamik[®] DMG** from FoodScience[®] of Vermont is a metabolic enhancer that promotes a strong and healthy immune system.*

Research and clinical experience has shown that DMG supplementation can:

- ✓ Support oxygen utilization and thereby reduce low oxygen states in the body.*
- ✓ Support optimal immune system function.*
- ✓ Adaptogenic support by acting as an indirect methyl donor to provide useful building units for the biosynthesis of vitamins, hormones, neurotransmitters, antibodies, nucleic acids and metabolically active molecules.*
- ✓ **Maitake-DMG Liquid™** brings together two potent nutrients that can help support immune system function and help maintain optimal health.*

Supplement Facts

Serving Size 1 ml

Servings Per Container 120

Amount per Serving	% Daily Value
Maitake PD-Fraction [®] (<i>Grifola frondosa</i>)	
fruiting body extract 30 mg	*
Yielding: D-Fraction [®] 9 mg	
N,N-Dimethylglycine (DMG) 450 mg	*
