V

The active compounds in *Ginkgo biloba* act as free radical scavengers.* They support the utilization of oxygen and glucose, healthy circulation, activity, memory, and mood balance.* Our *Ginkgo* is standardized to yield 14.4 mg (24%) Ginkgo Flavone Glycosides per capsule.

✓ An herbal supplement to support circulatory and brain functions.*

✓ *Ginkgo biloba* is one of the world's oldest living tree species, believed to have survived for 200 million years.

✓ *Ginkgo biloba* has traditionally been used to support healthy brain and respiratory function, ocular health and memory.*

✓ Recommended for those who need additional support with neurological, respiratory, vascular, sexual, cardiovascular and memory functions.*

✓ *Ginkgo biloba* contains active compounds (ginkgo flavone glycosides) that are free radical scavengers, which support cell membranes in the brain and other tissues.*

Ginkgo flavone glycosides support:

✓ Optimal uptake and utilization of oxygen and glucose*

✓ Blood flow to the brain and extremities*

✓ Neurotransmission function in the brain*

✓ Memory and mood balance*

✓ *Ginkgo biloba* supports the rate at which information is transmitted at the nerve cell level.*

✓ *Ginkgo biloba* may have ability to scavenge free radicals, normalize vascular functions and support metabolic processes.*
