

## SUPERIOR COLLAGEN™

» 90 TABLETS | 0300410.090

### SUPPORTS SKIN, JOINT & CONNECTIVE TISSUE HEALTH\* WITH MSM & GLUCOSAMINE

» **Superior Collagen™** contains BioCell Collagen® which is a multi-functional, patented ingredient for joint, skin and vascular support.\* BioCell Collagen® is made from 100% pure, hormone and anti-biotic free, low molecular weight hydrolyzed chicken sternum cartilage extract, thereby providing remarkably high bioavailability and purity. BioCell Collagen® naturally contains a minimum of 20% depolymerized Chondroitin Sulfate, a form of Chondroitin Sulfate that is absorbed up to 5 times better than bovine-derived materials.\*

#### A unique combination of protective ingredients that work synergistically to:

- ✓ Support cartilage and collagen regeneration by providing raw materials for production of glycosaminoglycans (GAGs)\*
- ✓ Support moisture retention, collagen production and skin elasticity\*
- ✓ Balance pro-inflammatory mediators like cytokines and prostaglandins\*

#### BioCell Collagen®

- ✓ BioCell Collagen® is made from 100% pure, hormone and anti-biotic free, low molecular weight hydrolyzed chicken sternum cartilage extract, thereby providing remarkably high bioavailability and purity.
- ✓ It is the only patented, clinically-tested source of Chicken Collagen Type II, and is shown to be effective in joint and skin conditions due to its purity and high bioavailability.\*
- ✓ It contains chondroprotective agents that support joint, skin and vascular structure, function and lubrication.\* Cartilage Matrix Glycoprotein protects cartilage from breakdown, balances cytokines and prostaglandins, and supports cartilage synthesis.\*

#### Hyaluronic Acid

- ✓ The BioCell Collagen® naturally contains a minimum of 10% of Hyaluronic Acid (HA), a GAG not usually found in other collagen supplements.
- ✓ HA supports retention of skin moisture and functions as a lubricant between the connective tissue of the skin and is a major constituent of synovial fluid in the joints.\*
- ✓ HA rejuvenates skin, supports the skin healing process and improves skin tone.\*

#### Chondroitin Sulfates

- ✓ BioCell Collagen® naturally contains depolymerized Chondroitin Sulfates, which are absorbed up to 5 times better than bovine-derived materials.\*
- ✓ Chondroitin Sulfates support the flexibility and elasticity of many body tissues including connective tissues, the walls of blood vessels and the structural integrity of the heart, brain and skin.\*

#### Glucosamine HCl

- ✓ Glucosamine supports skin and joint health by supporting the production of GAGs, proteoglycans and collagen.\* GAGs give shape and elasticity to connective tissues.\* GAGs hold high levels of water in their structure, which enables the joints, skin and vascular beds to hold more water thereby increasing flexibility, cushioning ability and resiliency.\*

#### Methylsulfonylmethane (MSM)

- ✓ MSM is an important source of organic sulfur. Sulfur is found in collagen, hormones and immunoglobulins. Sulfur helps maintain proper connective tissue function and formation of collagen.\*
- ✓ Sulfur deficiencies have been associated with slow wound healing, immune system impairment, poor skin health and degenerative joint conditions.\*
- ✓ MSM supports proper tone, elasticity and texture of the skin and is needed for proper hair and nail growth.\*

#### Supplement Facts

**Serving Size: 2 Tablets**

**Servings Per Container 45**

**Amount per Serving**

BioCell Collagen®	
(Hydrolyzed Chicken Collagen Type II)	1,000 mg
Methylsulfonylmethane	800 mg
Glucosamine HCl (from shrimp and crab)	600 mg

**% Daily Value**

\*  
\*  
\*

\*Daily Value not established.

Other ingredients: microcrystalline cellulose, stearic acid, vegetable stearate, croscarmellose sodium, silicon dioxide, pharmaceutical glaze.

**Contains: Shrimp and crab.**

**Warning:** If you are pregnant or nursing, consult your healthcare practitioner before taking this product.

**Suggested Use:** As a dietary supplement, take two tablets, once daily. For faster results take two tablets twice daily for four weeks.
