

MEGA PROBIOTIC™

SUPPORTS G.I. TRACT HEALTH*

CHEWABLE NON-DAIRY PROBIOTIC

» **Mega Probiotic™** is a comprehensive and completely vegetarian supplement designed to support healthy digestive tract function and nutrient absorption.* It contains non-dairy probiotics and a broad-spectrum of enzymes that work together to support digestion and GI tract health.* Each chewable tablet provides 2.5 billion beneficial microorganisms along with Amylase, Bromelain, Lactase, Lipase, Protease and Cellulase in a delicious, natural orange and tropical fruit flavored chewable tablet.

Mega Probiotic™ Features:

- ✓ Vegetarian source of enzymes and probiotics
- ✓ Lactase to break down milk sugar and dairy products*
- ✓ Easy-to-take delivery system

Recommended For:

- ✓ Enzyme support in vegetarians*
- ✓ Proteolytic enzyme support*
- ✓ Individuals under stress*
- ✓ Support for those with a need for additional enzyme and probiotic support*

- ✓ **Lactase** supports the breakdown of lactose, a milk sugar.* If lactose is not broken down properly it can contribute to intolerance in some individuals.*
- ✓ **Bromelain** is a proteolytic enzyme that digests proteins into smaller units (peptides and amino acids) for better absorption and utilization.* Incomplete digestion of proteins can lead to food sensitivities in some individuals.*
- ✓ **Protease enzymes** break down proteins into peptides and amino acids necessary to support proper growth and repair of cells, while also assisting in the production of enzymes, hormones and DNA.*
- ✓ **Lipase enzymes** help digest and assimilate fats which are essential for the absorption of fat soluble vitamins.*
- ✓ **Amylase** breaks down carbohydrates for energy to fuel our brains, nervous system, heart, lungs and muscles.*
- ✓ **Probiotics**
Lactobacilli strains are located in the small intestine and produce lactic acid. Many strains of bacteria from the lactobacillus family have been shown to support digestive regularity and urogenital health, support the production of the lactase enzyme, and help protect the gut from unwanted microorganisms.*

- ✓ **Bifidobacterium** are located in the colon and produce lactic acid and acetic acids, making the gut a very inhospitable place for unwanted material.* Bifidobacteria also support regularity*. *Bacillus coagulans* are a spore forming, lactic acid producing bacteria. They support healthy immune system function, the elimination of unwanted material and have been shown to help reduce gas and bloating.*

Supplement Facts

Serving Size 1 Chewable Tablet

Servings Per Container 90

Amount per Serving

% Daily Value

Calories 5	
Total Carbohydrates 1 g	<1% †
Proprietary Blend of Non-Dairy Probiotic Culture 318.75 mg containing <i>Bacillus coagulans</i> , <i>Lactobacillus acidophilus</i> , <i>Lactobacillus bulgaricus</i> , <i>Lactobacillus rhamnosus</i> , <i>Bifidobacterium breve</i> , <i>Bifidobacterium longum</i> (14 Billion CFU/g).	*
