

## DIMPRO<sup>®</sup>

>> 120 CAPSULES | 0300729.120

### SUPPORTS HORMONAL BALANCE & WEIGHT MANAGEMENT IN MEN & WOMEN\*

#### 75 MG OF BIOAVAILABLE DIM<sup>®</sup> PER SERVING

>> **DIMPRO<sup>®</sup>** is a proprietary blend of DIM<sup>®</sup> (Diindolylmethane) with Vitamin E and Phosphatidylcholine. DIM<sup>®</sup> causes a beneficial shift in the balance of estrogen, testosterone, and progesterone in both men and women.\*

- ✓ Supplemental use of **Dimpro<sup>®</sup>** supports your estrogen management system that will help you to achieve your health and fitness goals, whether you are a man or woman, athlete, body builder or a dieter.\*
- ✓ **Dimpro<sup>®</sup>** is a proprietary blend of Diindolylmethane (DIM<sup>®</sup>), Vitamin E and Phosphatidylcholine in a highly-bioavailable, patented form that manages the health risks associated with estrogen dominance and slow estrogen metabolism in both men and women by helping to maintain proper hormone balance.\*
- ✓ **DIM<sup>®</sup>** is a plant compound that promotes estrogen metabolism causing a beneficial shift in the balance of estrogen, testosterone and progesterone in both men and women.\* A healthy balance between these three hormones supports skin, prostate, ovarian, breast, skeletal, joint and cardiovascular health, lean body mass, efficient fat burning, better physical conditioning, improved mood and memory, increased libido, and supports healthy aging.\*
- ✓ **Dimpro<sup>®</sup>** supports those taking HRT because it helps the body balance estrogen by modulating the activity of enzymes.\* These enzymes support the metabolism of estrogen.\*
- ✓ In women, estrogen is the dominant hormone. Healthy metabolism of estrogen lowers the health risks and side-effects associated with unopposed estrogen or estrogen dominance. In men, testosterone is the dominant hormone while estrogen is found in small amounts. An imbalance in estrogen metabolism can contribute to male hormonal imbalance. Supporting estrogen metabolism with **Dimpro<sup>®</sup>** may help restore the testosterone-to-estrogen ratio.\*
- ✓ **Dimpro<sup>®</sup>** can be used with other supplements to support metabolism and hormone balance, and is considered safe to use in conjunction with synthetic hormone replacement therapies, with approval from and under the supervision of your healthcare practitioner.\*

#### Supplement Facts

**Serving Size 1 Capsule**

**Servings Per Container 60**

**Amount per Serving**

**% Daily Value**

DIM<sup>®</sup> 75 mg

\*

DIM<sup>®</sup> (a patented enhanced bioavailability complex of starch, diindolylmethane, Vitamin E as d-alpha Tocopheryl Succinate, soy phosphatidylcholine, silica)
