

## GRAPE SEED

» 90 CAPSULES | 0300746.090

**SUPPORTS PROPER IMMUNE SYSTEM, VASCULAR FUNCTIONS & SKIN HEALTH\***

**100 MG EXTRACT**

» **Grape Seed** is standardized to yield 95 mg (95%) proanthocyanidins (PAs) per 100 mg capsule. PAs are a special class of bioflavonoids that are potent free-radical fighters.\*

- ✓ For those with recurrent or persistent skin or respiratory concerns (due to their ability to regulate histamine) as well as those that need improved joint, immune, circulatory and vascular support.\*
- ✓ FoodScience<sup>®</sup>'s **Grape Seed** (*Vitis vinifera*) is standardized to yield 95% proanthocyanidins (PAs) per capsule. PAs are bioflavonoids, a group of water-soluble, low molecular weight plant substances with recognized free radical scavenging properties. They have the ability to inhibit the activity of certain enzymes which cause pro-inflammatory reactions within the body. PAs are unique because they are immediately bioavailable.
- ✓ In some comparative tests, proanthocyanidins were found to be 50 times more potent than Vitamin E and 20 times more potent than Vitamin C as free radical fighters.\* Free radicals are oxygen atoms which can badly damage cell structures, leading to lowered immune response and vulnerability to numerous degenerative health issues.\* The PAs in **Grape Seed** are able to perform within the cell membrane and neutralize both fat and water-soluble free radicals.\*
- ✓ Proanthocyanidins help to manage the release of histamine from mast cells.\*
- ✓ Proanthocyanidins support capillary strength.\* Weak capillaries can contribute to bruising, impaired elastin and collagen dysfunction, edema and circulatory insufficiencies.
- ✓ **Grape Seed** also has the unique ability to bond to collagen fibers.\* It even inhibits the natural enzymes your body makes that normally break down collagen.\* By supporting collagen health, **Grape Seed** helps return flexibility to skin, joints, arteries, capillaries and other tissues.\*

- ✓ Extensive research convincingly demonstrates that **Grape Seed** and PAs are completely nontoxic, non-carcinogenic and non-mutagenic.
- ✓ **Grape Seed** is standardized to contain 95% proanthocyanidins per capsule and is available in two potencies, 50 mg and 100 mg capsules.

### Supplement Facts

Serving Size 1 Capsule	% Daily Value
Servings Per Container 90	
Amount per Serving	
Grape Seed Extract 100 mg	
yielding Proanthocyanidins 95 mg	*

\*Daily Value not established.

Other ingredients: microcrystalline cellulose, vegetable cellulose.

**Warning:** If pregnant or nursing, consult your healthcare practitioner before taking this product.

**Suggested Use:** As a dietary supplement, take 1 capsule, once daily with a meal.
