

OLIVIR™ 15 TABLETS

>> 90 TABLETS • 500 MG | 0300760.090

AN OLIVE LEAF EXTRACT SUPPLEMENT TO SUPPORT IMMUNE SYSTEM FUNCTION*

STANDARDIZED TO YIELD A MINIMUM OF 75 MG (15%) OLEUROPEIN PER TABLET

>> **Olivir™** brand olive leaf extract is standardized to yield a minimum of 15% Oleuropein per capsule or tablet. **Olivir™** supports “friendly” microflora and can be used to support the immune system.*

- ✓ Olive Leaf Extract works directly against unwanted materials by stimulating your own protective cells (phagocytes) to ingest them without suppressing the immune system or damaging the body's beneficial flora.*
- ✓ **Olivir™ 15** is standardized to yield 15% Oleuropein, the active ingredient, and is available in 500 mg tablets or capsules. **Olivir™ 15** is vegetarian and gluten free.
- ✓ **Olivir™ 15**, the brand name of an olive leaf extract, is one of the most useful, natural, immune supportive herbal extracts available.* Through extensive research and clinical studies, Oleuropein was found to be effective against a broad spectrum of unwanted materials.* Additionally, Oleuropein supports the immune system response and aids in normal detoxification.*
- ✓ **Olive Leaf Extract** contains a natural complement of bioflavonoids from Quercetin and Rutin, which are powerful free-radical fighters.*
- ✓ There are no known adverse effects for olive leaf extract supplementation. However, some mild discomfort may occur such as headache, fatigue and digestive discomfort. These are short-lived and are a result of the natural detoxification process. **Olivir™ 15** is so effective it may free up unwanted materials faster than the body can eliminate them, causing these symptoms.* If these symptoms persist, reduce the daily serving. **Olivir™ 15** is considered an extremely safe dietary supplement.*

Supplement Facts
