

SKIN HYALUR-DRATION™

>> 60 CAPSULES | 0300985.060

SUPPORTS HEALTHY SKIN & CONNECTIVE TISSUE*

40 MG HYAMAX® BRAND HA PER CAPSULE

>> **Skin Hyalur-dration™** is designed to support healthy skin and joints by promoting healthy collagen, and to hydrate & thicken synovial fluid.* It combines low molecular (<30,000 daltons) weight hyaluronic acid with Chia and lecithin for maximum bioavailability. **Skin Hyalur-dration™** is an excellent adjunct to any program designed to support joint, skin and connective tissue health.*

Recommended For:

- ✓ Joint flexibility*
- ✓ Optimizing synovial fluid viscosity*
- ✓ Supporting cartilage health*
- ✓ Promoting healthy skin*

Nutritional Profile:

- ✓ 40 mg of low-molecular weight HyaMax® brand H.A., ideal of optimal utilization by the body.*
- ✓ Combined with 100 mg each of Sunflower Lecithin and Chia (*Salvia hispanica*) seed for enhanced bioavailability*
- ✓ Vegetarian, Non-GMO, and Gluten Free.

About the Nutrients:

- ✓ H.A. is found throughout the body for structural support.* It is found most abundantly in cartilage, synovial fluid, skin and the fluid of the eye.
- ✓ H.A. acts as a cushion and lubricant in the joints and other tissues by helping to thicken synovial fluid, pulling water into the joints and supporting healthy connective tissue structures.*
- ✓ H.A. is a natural moisturizing agent and is essential for the structure of the extracellular matrix which keeps the skin moist and supple.*
- ✓ H.A. acts as a space-filler in dermal layers between skin cells and produces a long-lasting skin enhancement which helps make skin soft, smooth and elastic, especially for the face and lips.*
- ✓ H.A. nourishes and hydrates collagen which is vital to maintaining the skin's layers and structures.*
- ✓ Supplementing with hyaluronic acid for skin and joint health is crucial due to decreased synthesis with aging.*
- ✓ Chia (*Salvia hispanica*) has been used historically (mainly by the Aztecs) to enhance the uptake of other herbals and natural components.* It contains protein, minerals, and alpha-linolenic acid (that can be used to produce the essential omega-3 fatty acids EPA and DHA), as well as glycoproteins and glycolipids that have gel forming qualities.*

- ✓ The gel-forming properties of the chia seed, in combination with sunflower lecithin, provide a protective coating around the H.A. molecule to support absorption.*
- ✓ Lecithin is a phospholipid found in every cell membrane. It supports cell membrane structure and helps regulate the flow of nutrients into and out of the cell.* In combination with chia it can form a gel that protects H.A. and supports the absorption process so it can be used where it is needed most.*

Supplement Facts

Serving Size 1 Capsule

Servings Per Container 60

Amount per Serving

Hyaluronic Acid (HyaMax® brand Sodium Hyaluronate)	40 mg	* % Daily Value
Sunflower Lecithin	100 mg	*
<i>Salvia hispanica</i> (seed) powder	100 mg	*
